**RE: FDEP ID: COM 288039, Weekly Update**

Jon Iglehart  
South District Director, FDEP  
2295 Victoria Avenue, Suite 364  
Fort Myers, Florida 33901

Dear Mr. Iglehart,

This letter constitutes the weekly update requested by FDEP concerning the removal of the lime residual at the South Street Property.

The August groundwater sampling was completed on Monday and Tuesday (8-20 & 21-2018). This month's sampling included gross alpha. The results are anticipated to be received next week. The next testing is scheduled for Sept 17 & 18.

The City of Fort Myers City Council approved all the contracts and agreements to proceed with the removal and disposal plan submitted to FDEP on August 30, 2018. Attached is the executed contract with PPM for the transportation and disposal of the Lime Residual. This contract outlines the responsibilities of PPM for proper handling and disposal of the lime.

The City of Fort Myers will continue to coordinate with FDEP to facilitate the Removal Plan and monitoring. Thank you for assistance over the last few months as worked out the plan.

If you have any other questions or concerns please contact me at (239) 321-7630.

Thank you,

Richard H Thompson, P.E.  
City of Fort Myers
