RE: ID # COM_288039, City Block Bordered by South Street, Henderson Ave, Jeffcott Street, and Midway Ave (aka Homerama).

Dear Mr. Kazemi:

Thank you for submitting an amended City of Fort Myers' ("City") draft Site Assessment Work Plan prepared by GFA International, Inc., for the above referenced site, dated July 19, 2017, GFA Project No. 17-5281.00.

The Department has reviewed the amended work plan for consistency with Chapter 62-780, F.A.C. We find that the amended plan addresses all previous Department comments with the following exception, molybdenum should be added to the Phase I laboratory analysis to characterize the waste material.

Once we receive the draft with this final change incorporated, we will provide final confirmation that the draft plan satisfies the requirements of Chapter 62-780, F.A.C. It is our understanding that the next step will be for the City to publish a public notice of this draft plan and hold a public meeting for the City to solicit public comment.

Following the incorporation of any public feedback by the City, the Department will conduct a final review of the work plan. We remain available to assist as needed as the City works to finalize its assessment plan and to working closely with the City to ensure that all aspects of the plan are achieved once it is finalized and approved.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Iglehart", with a long horizontal line extending to the right.

Jon M. Iglehart
Director of District Management

Mr. Saeed Kazemi
