**RE: FDEP ID: COM 288039, Weekly Update**

Jon Iglehart  
South District Director, FDEP  
2295 Victoria Avenue, Suite 364  
Fort Myers, Florida 33901

Dear Mr. Iglehart,

This letter constitutes the weekly update requested by FDEP concerning the removal of the lime residual at the South Street Property.

The City of Fort Myers City Council approved all the contracts and agreements to proceed with the removal and disposal plan submitted to FDEP on August 30, 2018. Thank you for the e-mail dated August 31 stating that the plan is consistent with interim source removal for contaminated sites identified under F.A.C. 62-780. Based on this e-mail the City of Fort Myers is moving forward with the Removal and Disposal Plan on October 1.

The City of Fort Myers will continue to coordinate with FDEP to facilitate the Removal Plan and monitoring.

The relocation of the fence will begin this week to facilitate the start of the removal plan.

Attached is the transportation and reuse work plan prepared by PPM that was requested on September 19, 2018.

If you have any other questions or concerns please contact me at (239) 321-7630.

Thank you,

Richard H Thompson, P.E.  
City of Fort Myers  
Stormwater Resource Manager
