**RE: FDEP ID: COM 288039, Weekly Update**

Jon Iglehart  
South District Director, FDEP  
2295 Victoria Avenue, Suite 364  
Fort Myers, Florida 33901

Dear Mr. Iglehart,

This letter constitutes the weekly update requested by FDEP concerning the removal of the lime residual at the South Street Property.

Groundwater sampling was collected on Monday 3-18-2019. These results will be forwarded as soon as they are received by the City.

The Confirmatory Sampling and Removal Assurance Plan sampling was submitted to the DEP on 03/19/2019. As part of the assurance, a final screening of the site is being conducted this week to confirm that lime residuals have been removed. Additional material may be removed from the site this week. Screening and potential removal will continue next week if it is determined to be necessary.

The City of Fort Myers will continue to coordinate with FDEP to facilitate the Removal Plan and monitoring.

If you have any other questions or concerns please contact me at (239) 321-7630.

Thank you,

Richard H Thompson, P.E.  
City of Fort Myers
