RE: FDEP ID: COM 288039, Weekly Update

Jon Iglehart
South District Director, FDEP
2295 Victoria Avenue, Suite 364
Fort Myers, Florida 33901

Dear Mr. Iglehart,

The groundwater sampling was completed on Monday 2-18-2019. Additional samples were collected on Monday 2-25-2019. The results for this round of sampling are attached. Groundwater sampling was collected on Monday 3-18-2019. These results will be forwarded as soon as they are received by the City.

Work will be ongoing in the next week to form the site. The Confirmatory Sampling and Removal Assurance Plan sampling was submitted to the DEP on 03/19/2019.

As part of the assurance, a final screening of the site was conducted this week to confirm that lime residuals have been removed. Additional material was removed from the site this week. Screening and potential removal will continue next week if it is determined to be necessary.

The City of Fort Myers will continue to coordinate with FDEP to facilitate the Removal Plan and monitoring. If you have any other questions or concerns please contact Mr. Richard Thompson P.E. at (239) 321-7630.

Thank you,

Richard Moulton, MBA
City of Fort Myers
Director of Public Works
