<p>FISCAL IMPACT (\$):</p>	<p>\$390,730.00</p>
<p>One-Time Cost:</p>	<p>Yes</p>
<p>Budget Year:</p>	<p>2021</p>
<p>Budgeted Item:</p>	<p>Yes</p>

Person Initiating Request: Richard Moulton, MBA

Department: Public Works - Engineering

BACKGROUND INFORMATION:

The City of Fort Myers completed the cleanup of the lime residuals at 3348 South Street in May 2019. As directed by City Council, a steering committee was setup to determine the final use of the property. After public meetings and a neighborhood survey, it was determined that the property should be used for a neighborhood park and stormwater facilities to alleviate nuisance flooding in the area. DRMP assisted with the steering committee kick-off meeting, development of the survey to determine land use, conducting public meetings, conceptual park design and stormwater analysis of the neighborhood under a previous continuing contract.

On August 3, 2020, Council approved the awarding of Request for Qualifications No. 0024-20 Civil Engineering Services - Continuing Contract to DRMP, Inc. for a contract period of five (5) years.

This Supplemental Task Authorization No. 1, in the amount of \$390,730.00, provides for project management, survey, permitting, and development of construction plans for the neighborhood park and the drainage improvements in the surrounding area.
